

Name:

Date:

Greenhouse temperatures

✓ You will need:

1 transparent plastic bag,
2 thermometers

🔧 What you need to do:

- Place one thermometer in the plastic bag and tie a knot in the top.
- Put both thermometers in the sun.
- Read the temperatures every 10 minutes and record your findings in the tables.

Thermometer in bag

Minute	°C

Thermometer without bag

Minute	°C

Enter your readings in the graph.
Use two different colours!
